DOUBLE BALLOON ENTEROSCOPY INTENSIVE COURSE

Rationale of the course

Double-balloon enteroscopy is a pioneering endoscopic technique revolutionizing the diagnosis and treatment of small bowel disorders. This advanced course aims to equip medical professionals with comprehensive knowledge and practical skills in utilizing double-balloon enteroscopy for intricate diagnostic procedures and therapeutic interventions within the small intestine.

Throughout this course, participants will delve into the difficulties of the double-balloon enteroscopy procedures, mastering the fundamental principles, techniques, and instrumentation essential for successful navigation and exploration of the small bowel. Participants will gain insights into patient selection, preparation, and maneuvering the double-balloon enteroscope through the extended length of the small intestine, ensuring thorough examinations and precise interventions.

Led by leading experts in gastroenterology and endoscopy, this course adopts a multidisciplinary approach, integrating theoretical teachings with pragmatic training sessions.

Moreover, this comprehensive program delves into the latest advancements, emerging trends, and potential applications of double-balloon enteroscopy in various clinical scenarios, including managing obscure gastrointestinal bleeding, diagnosing small bowel pathologies, and therapeutic interventions such as polypectomy and foreign body removal.

By the culmination of this course, attendees will emerge with a heightened expertise in double-balloon enteroscopy, capable of implementing this cutting-edge technique effectively, thereby enhancing their clinical practice and improving patient outcomes within the realm of small bowel disorders. Whether you're a seasoned gastroenterologist or a medical professional seeking to expand your skill set, this course promises to be a transformative journey into the realm of double-balloon enteroscopy.

DOUBLE BALLOON ENTEROSCOPY INTENSIVE COURSE

Program

First day
Thursday, February 22, 2024

MORNING SESSION

08:30 am - 08:35 am	Welcome and introduction Luca Elli, Maurizio Vecchi
08:35 am - 01:00 pm	Practical Session: Presence in the Enteroscopic Room. Visualization and Discussion of Procedures <i>Participants will immerse themselves in the enteroscopic environment. Experts will share clinical cases, addressing challenges and solutions encountered during double-balloon enteroscopies.</i>
01:00 pm - 02:00 pm	<i>Lunch Break</i>

AFTERNOON SESSION

02:00 pm - 04:00 pm, Frontal lessons and discussions

02:00 pm - 03:00 pm	Indications to enteroscopy Lucia Scaramella <i>Understand patient selection criteria and the role of enteroscopy in diagnosing and managing small bowel disorders.</i>
03:00 pm - 04:00 pm	Anesthesiology in Enteroscopy Massimiliano Pirrone <i>Understand the principles and considerations for safe and effective sedation during double-balloon enteroscopic procedures.</i>

DOUBLE BALLOON ENTEROSCOPY INTENSIVE COURSE

Program

Second day
Friday, February 23, 2024

MORNING SESSION

08:30 am - 01:00 pm **Practical Session: Presence in the Enteroscopic Room. Visualization and Discussion of Procedures**

Continuation of the hands-on experience in the enteroscopic room, offering participants the opportunity to witness several procedures. In-depth exploration of challenging cases.

01:00 pm - 02:00 pm *Lunch Break*

AFTERNOON SESSION

02:00 pm - 04:00 pm, Frontal lessons and discussions

02:00 pm - 03:00 pm **Role of Nurses in Enteroscopy**
Erica Panichi, Virginia Caccialanza

Insights on the pivotal role of nurses in supporting and enhancing the efficiency of enteroscopic procedures. Discussion on their responsibilities, coordination with the medical team, and ensuring patient comfort and safety.

03:00 pm - 03:55 pm **Enteroscopy in Inflammatory Bowel Disease (IBD)**
Gian Eugenio Tontini

Overview of the enteroscopy applications in Inflammatory Bowel Disease (IBD): how double-balloon enteroscopy can contribute to the diagnosis and management of small bowel involvement in IBD patients.

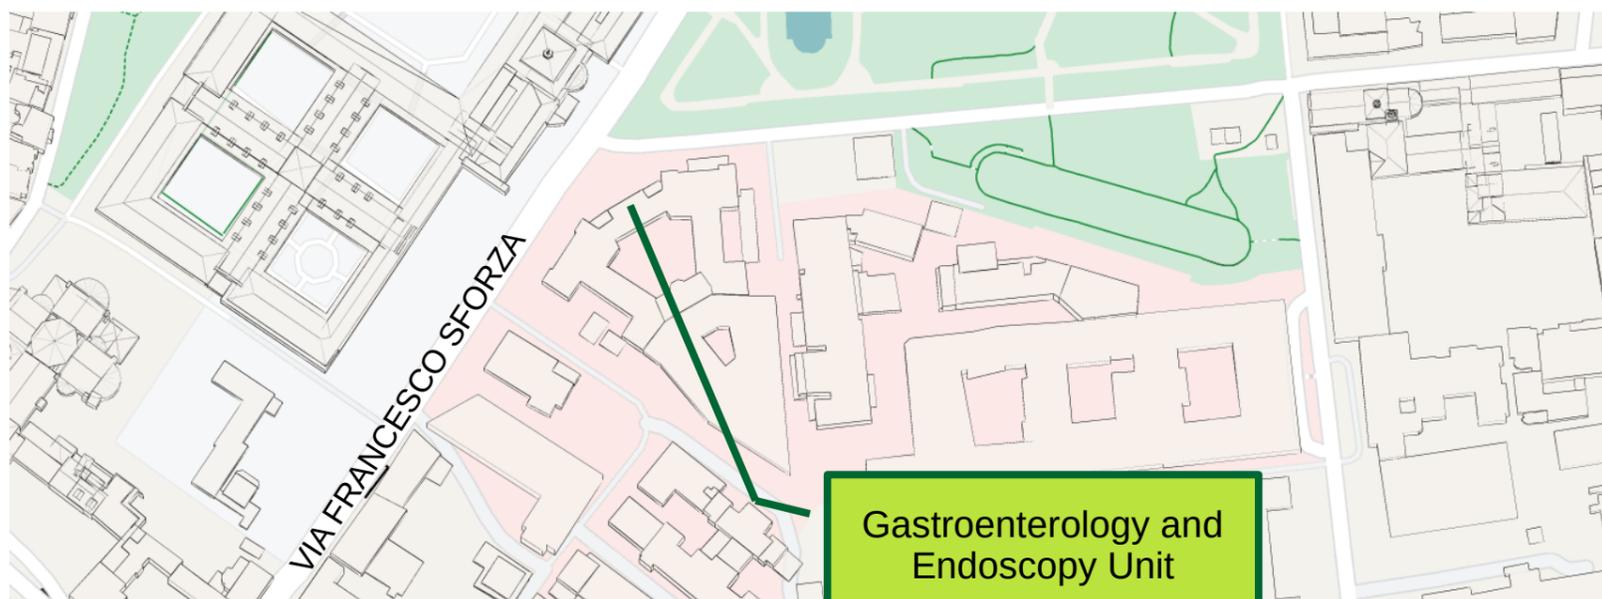

03:55 pm - 04:00 pm **Concluding Remarks and Summary**
