EUS Skyline: Growing Stronger

We're thrilled to announce the 3rd edition of EUS Skyline, taking place on October 4th, 2024.

This year's course will be bigger than ever, featuring our new strategic partnership with Endoscopy On Air, opening up exciting opportunities to expand our global reach and engage with a wider audience. By leveraging the technological platforms of both **EUS Skyline** and **Endoscopy On Air**, we're set to reach new horizons in endoscopic ultrasound education.

This collaboration not only extends the reach of our broadcast, but also strengthens the synergy between our communities and will foster greater interaction and knowledge-sharing.

SAVE THE DATE, join us, and be part of something bigger with EUS Skyline 2024!
